

Sample environmental policy statement

Environmental Policy Statement

The company is committed to integrating environmental best practice into all its business activities. We accept our environmental responsibilities and recognise our obligation to reduce the impact of business activities on the environment.

We will achieve this through a policy of continual improvement in environmental performance.

To achieve these objectives, we will:

- Adopt best practice and assist, where possible, in developing innovative solutions to the environmental issues and problems facing our industry.
- Assess the environmental impact of all past, current and likely future operations, and fully integrate environmental considerations and objectives.
- Reduce the production of waste and develop effective waste management and recycling procedures, as well as disposing of unavoidable waste in such a way as to minimise its environmental impact.
- Plan effectively to minimise print wastage and use environmentally friendly printing processes.
- Develop waste strategy.
- Encourage the use of environmentally friendly transport by staff.
- Raise awareness amongst members of staff through appropriate education and training, encouraging them to become more environmentally responsible.
- Encourage awareness of, and commitment to, improved environmental performance amongst suppliers and customers.
- Communicate this policy to members of staff, and consult with them to ensure that they take an active role in its implementation and review.

Each employee is responsible for their own adherence to the principles of this policy.

The contents of this policy and the way it's implemented will be reviewed annually.
