

Exhibition and Event Consultancy

Providing peace of mind from concept to reality

Social responsibility

I want my business to be the first and natural choice for customers and stakeholders. To achieve this I must provide the right products at the right price and relentlessly pursue superior service. I'll live up to my own personal values, act responsibly and provide clear leadership at all times.

Environmental policy statement

www.consultmartin.co.uk is a leading UK based exhibition and event consultancy providing a range of technical and environmental guidance in the UK and overseas.

It is a customer driven, service business committed to integrating environmental best practice into all its business activities. Key areas where attention can be focused are purchasing and advisory activities.

To achieve these objectives, I will:

- Adopt best practice and assist, where possible, in developing innovative solutions to the environmental issues facing the industry.
- Recognise compliance with relevant environmental legislation as a minimum level of performance.
- Minimise the production of waste by means of effective waste management and recycling procedures, as well as disposing of unavoidable waste in such a way as to minimise its impact on the environment.
- Use electronic communication to minimise print wastage and when necessary use paper from sustainable forests and environmentally friendly printing processes.
- Cut the amount of energy consumed by continuing to use energy-saving measures.
- Encourage awareness of, and commitment to, improved environmental performance amongst suppliers and customers. Wherever practicable, specify products from sustainable sources, products made from recycled materials or designed to be easy to re-use or recycle.
- Continue to provide detailed guidance to help identify environmental risks in the UK and abroad.
- Participate in discussions about environmental issues

These commitments are backed up by actively seeking opportunities for continuous improvement and raised awareness of environmental policy amongst customers and stakeholders.

Responsibility for environmental policy rests with Martin Smith.

This policy will be reviewed on a regular basis and revised as appropriate.
